

PRESS RELEASE

Marman Industries Announces Significant Growth and Expansion of Plastics Manufacturing for Healthcare

Investments in Tool Room, Cleanroom, Metrology Lab, and Project Engineering

La Verne, California – August 14, 2023 – Marman Industries, a custom manufacturer of plastic products for the medical and healthcare market, has announced double digit annual growth for each of the last three years. “Marman is on track for our 4th year of double digit annualized growth. I attribute our success to our Quality assurance program and exemplary customer service,” says Felix Rozuk, Director of Sales & Marketing of Marman Industries. “You can’t buy happy customers; we work hard for our clients, and it shows.”

Marman recently expanded their Metrology Lab and added a Zeiss 0-INSPECT vision system, a Zeiss CMM, and a Makino F5 hard milling machine this year to support our 20-man Tool Room which specializes in building of medical molds. A second cleanroom is under construction and due to be completed this fall with all new ARBURG injection molding machines. Additionally, Marman has grown their Project Engineering team to serve customers and streamline processes. With molding and tooling operations under one roof, Marman offers clients the security of single source responsibility.
